

CASE STUDY

- Samsung Commercial Displays
- HP/Poly Conferencing Systems
- Crestron Room Scheduling
- Touch Screens for Microsoft Teams®
- Shure IntelliMix Conferencing Audio

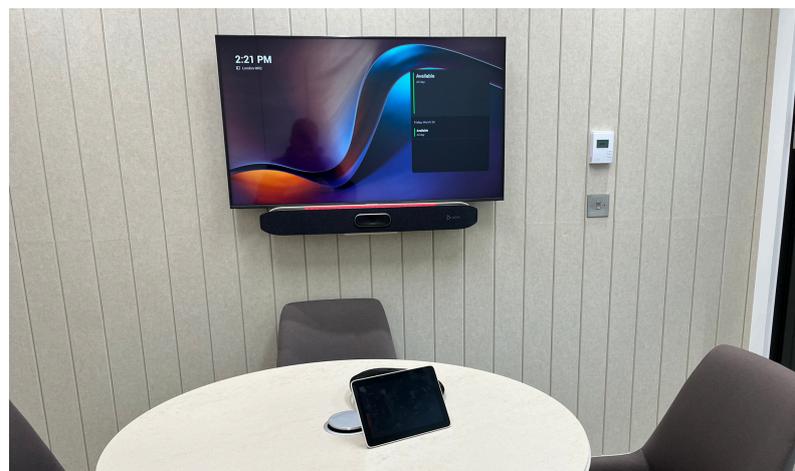

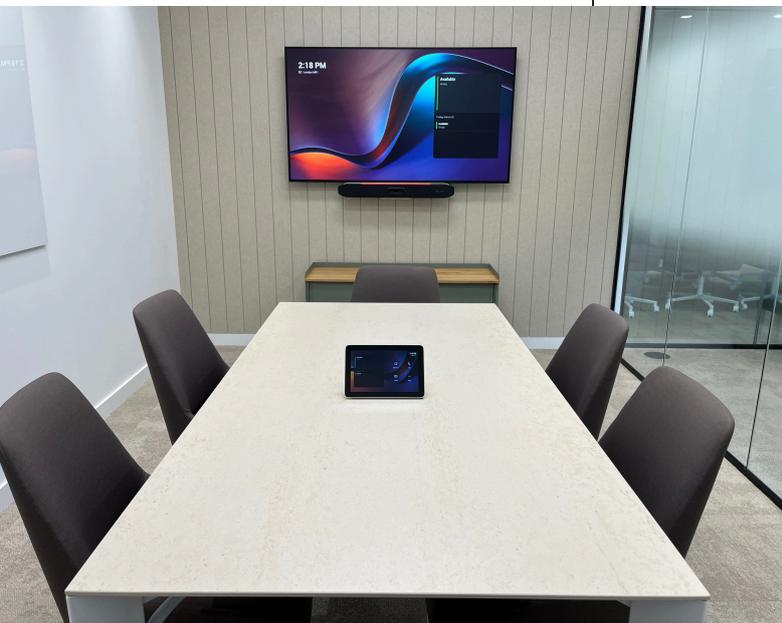

the tech

Masdar - London HQ

Project Value - £100,000

The client's office located in the heart of Paddington was in need of a complete Audio-Visual refresh of their Conference rooms. With the main focus being, simple to use and intuitive conference systems based on a Microsoft Teams® Rooms platform, complete with Room Scheduling/Booking Panels.

the brief

■ Townhall Spotlight

the solution

Each Conference Room was fitted with Samsung Commercial Display and the HP/Poly Microsoft Teams® Rooms solution, consisting of the Studio Video Bar and a TC8 Touch Controller. The Boardroom included large Samsung Commercial Display, HP/Poly Microsoft Teams® Rooms solution, enhanced Shure Audio with the Microflex® Advance™ Ceiling Array Microphone. The Crestron Room Scheduling Touch Screens for Microsoft Teams® was deployed on the outside of each conference space.

The end result was slick AV solution deployed throughout all conferencing spaces, which was based on the HP/Poly Conference system for Microsoft Teams®, including Crestron Room Scheduling Touch Screens mounted on the outside of each Conference room, providing the final touch. The client is thrilled with the outcome and will be engaging with SPOR for any future Audio-Visual requirements.

Siobhan Partridge

Office Manager, Global Offshore Wind & UK

"Can't fault the support and service provided by all the team at SPOR. I would definitely recommend SPOR to others."
